Become a IT/ Project- Manager

Unlock your potential in
Project Management and IT!

Are you ready to lead projects and drive digital transformation? Join our program and become a skilled IT/ Project-Manager!

Professional Qualification: Double
Degree Management and
Information Technology (M.Sc.)

In today's fast-paced digital world, the relevance of Business Informatics cannot be overstated. Organizations across industries are increasingly reliant on technology to drive their operations and gain a competitive edge. This growing dependence on technology creates a high demand for skilled IT-Project-Managers who can successfully navigate complex IT projects and ensure their alignment with business objectives.

Learning objectives:

- Develop expertise in planning, executing, and delivering successful IT projects within defined budgets and timelines
- Learn to lead and manage cross-functional teams
- Deepen your understanding of IT systems, technologies, and software development processes

IT Project Managers enjoy diverse career opportunities in high-demand industries such as technology, finance, healthcare, and consulting. The versatility of skills opens doors to government agencies, telecommunications, e-commerce, and many other sectors where technology is a critical component of business operations.
